

THE UNIVERSITY OF WISCONSIN
COLLEGE OF AGRICULTURE

Madison 6

DEPARTMENT OF GENETICS

June 8, 1953

Dear Vernon:

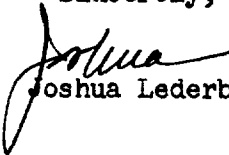

I have your letter of the 6th, which I would like to acknowledge, with thanks for the enclosed reprints.

Dr. Elberg and I discussed future possibilities of my visiting Berkeley again only in the most casual terms. If this materializes, I very likely would want to accept, but this would depend on the immediate circumstances.

I thought Ed Garber was definitely going to the Botany Department at Chicago. Is there any doubt of it?

*Ed is going to Chicago but
might want to teach at Cal in the
summer of '53 or '56.
JLS.*

Sincerely,

Joshua Lederberg
